AND KIDS?
A Programmer's
Best Friend

Problems

- **T**yping
- **E**nglish
- **R**uby Syntax

A group of children and adults are gathered around a table in a classroom or workshop. One child is seated at the table, working on a laptop. Several other children are standing around the table, looking at the laptop screen or other materials. An adult is standing to the right, observing the children. The background shows a classroom with a whiteboard and other educational materials. The text "Recently, Increased Programming Education" is overlaid on the image in a large, bold, black font with orange outlines. The word "Recently," is on the first line, "Increased" is on the second line, "Programming" is on the third line, and "Education" is on the fourth line.

Recently, Increased Programming Education

20,000 Teachers

**“Should be a
compulsory subject!”**

By President Obama

Compulsory education
for ages 5-16

Concept of algorithms
Building and Debugging
It is Practical!

27,230 events around the world

Japan

Government

Compulsory **E**ducation

Junior high school / Since 2012

Measurement and Control

1 Computer / 1 Student
~2020

Internationalization

The image illustrates the internationalization of the Scratch programming environment by comparing the English and Japanese versions side-by-side. A large orange double-headed arrow connects the two interfaces, with the word "English" on the left and "Japanese" on the right.

English Interface (Left):

- Scripts
- Costumes
- Sounds
- Motion (selected)
- Looks
- Sound
- Pen
- Events
- Control
- Sensing
- Operators
- move 10 steps
- turn 15 degrees
- turn 15 degrees

Japanese Interface (Right):

- スクリプト
- コスチューム
- 音
- 動き (selected)
- 見た目
- 音
- ペン
- イベント
- 制御
- 調べる
- 演算
- 10 歩動かす
- 15 度回す
- 15 度回す

- **E**asy to Run

Instruction Block

```
3 car1.=.Character.new
4 ↵
5 car1.on(:start).do↵
6 ..loop.do↵
7 ...move(10)↵
8 ...if.reach_wall?↵
9 ...turn↵
10 ...end↵
11 ..end↵
12 end↵
```

Ruby

Ruby

move(10)

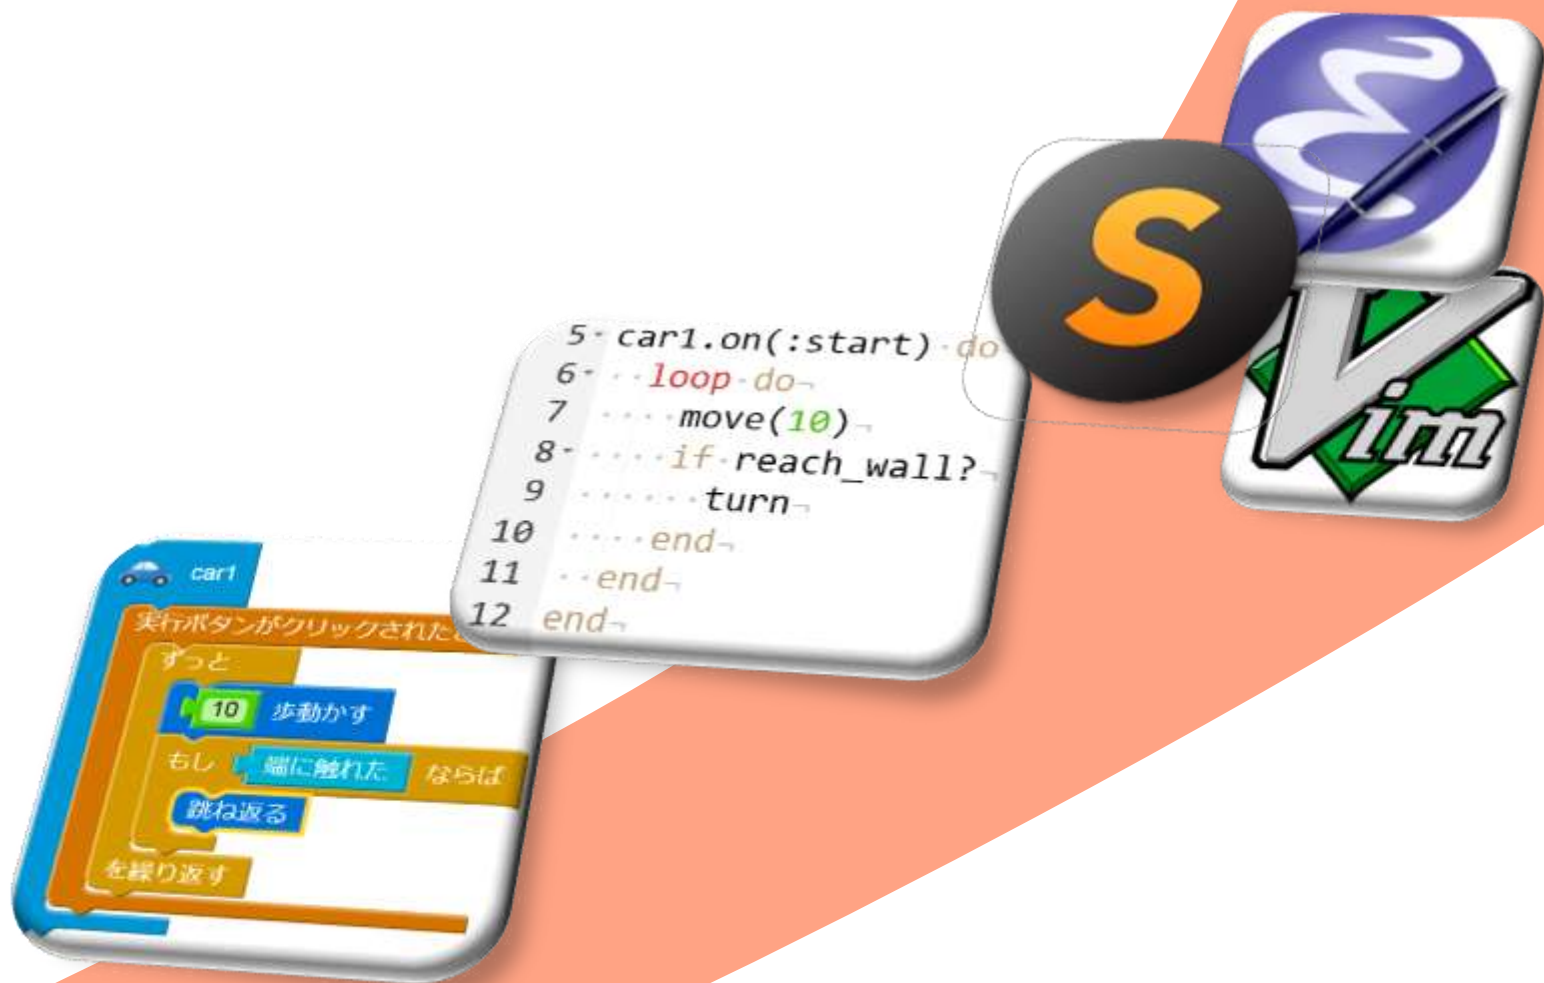

Instruction Block

A child with dark hair, wearing a yellow shirt, is sitting at a desk and looking at a computer monitor. The monitor displays a block-based programming interface. The text "KIDS WANTED TO CODE DIRECTLY!" is overlaid on the image in large, bold, white and orange letters. The computer is a white iMac G4 with "SmaTruby 16" written on the top left of the bezel. A black keyboard is in front of the monitor. In the background, there are various electronic components and a small card with a drawing of a robot.

**KIDS WANTED TO
CODE DIRECTLY!**

Define Instruction Block

```
Blockly.Blocks['motion_move'] = {
```

```
  init: function() {
```

```
    this.setColour(208)
```

```
    this.interpolateMsg('move %1 steps',  
      ['STEP', ['Number'], Blockly.ALIGN_RIGHT],  
      Blockly.ALIGN_RIGHT);
```

```
    this.setInputsInline(true);
```

```
    this.setPreviousStatement(true)
```

```
    this.setNextStatement(true)
```

```
  }
```

```
};
```

/app/assets/javascripts/blocks/motion.js.coffee.erb

Generate Ruby from Block

```
Blockly.Ruby['motion move'] =  
function(block) {  
  var arg =  
    Blockly.Ruby.valueToCode(this,  
      'STEP',  
      Blockly.Ruby.ORDER_NONE);  
  return 'move(' + arg + ')';  
};
```

/app/assets/javascripts/blocks/motion.js.coffee.erb

move(10)

Ruby

move(10)

Instruction Block

move(10)

Ruby

10 歩動かす
(歩動かす = move)

“Blockly’s XML”

Translate Block from Ruby

```
class MotionMove < CharacterMethodCall
  blocknize '^¥s*' + CHAR_RE + 'move¥((.+)¥)¥s*$'
  statement: true, inline: true
```

```
def self.process_match_data(md, context)
  md2 = regexp.match(md[type])
  add_character_method_call_block(
    context, md2[1], new, STEP: md2[2])
  true
end
end
```

Conclusion

- **Teaching Ruby Motivations**
 - **Ruby City MATSUE Project**
 - **TEACH MY SON RUBY**
- **Smalruby**
 - **For over 8 years old**
- **Ruby Programming Shounendan**
 - **Learning Ruby Organization for Boys & Girls**

I believe that people
should focus on creating
tools to help everyone.

“Facing problems and
looking for the answer
that will solve them”
is a very important.

I sympathize with
everyone here and ...

I'm glad that we are all
somehow involved with
OSS development.

Ruby is

AND KIDS!
And Programmer's
Best Friend
